PROFESSIONAL SUMMARY

Founder of WeDo, a web design studio focused on building premium, high-performance websites that help businesses establish a strong digital presence. Alongside leading client projects from strategy to deployment, I am a B.Tech Computer Science (Artificial Intelligence) undergraduate with hands-on experience in data analytics, dashboard development, and business intelligence. Proficient in Python, SQL, Excel, Tableau, and modern web technologies, I enjoy transforming complex data into actionable insights while building scalable digital products that solve real-world business challenges.

EDUCATION

Bachelor of Technology (Artificial intelligence)	2024 - 2028
Newton School of Technology, Rishihood University	Grade: 7.0/10.0

Intermediate (Class XII)	2023 - 2024
Central Public Senior Secondary School	Grade: 86.2%

Matriculation (Class X)	2010 - 2022
St Francis Senior Secondary School Hathras	Grade: 94.8%

EXPERIENCE

Founder	May 2026 - Present
Wedo	Remote

- **Founder of WeDo**, crafting premium digital experiences where strategy, design, and technology come together to build brands that stand out.
- **Building modern websites** that don't just look exceptional—they help businesses grow, convert, and create lasting impressions.
- **Founder at WeDo** • Turning ambitious ideas into high-performance digital products through thoughtful design and seamless development.
- **Designing with purpose**, developing with precision, and helping businesses build a digital presence that truly reflects their vision.

INTERNSHIPS

Software Developer	May 2025 - August 2025
Countrees AI	Remote

- Worked with databases and ERP systems to manage structured data
- Assisted in data handling, storage optimization, and backend logic
- Collaborated on system design involving data flow and processing

PROJECTS

Wedo (Github) (Demo)	June 2026
---	-----------

- **Founded and designed the WeDo agency website.**
- **Showcases services, portfolio, and brand identity.**
- **Focused on performance, aesthetics, and conversions.**

Staywise (Demo)	April 2026
--	------------

- Analyzed Airbnb listings to understand market trends, demand patterns, and revenue distribution across cities.
- Identified pricing inefficiencies using gap analysis, highlighting underpriced and overpriced listings affecting performance.
- Proposed data-driven optimizations—price adjustments and amenity improvements—to maximize revenue and listing efficiency.

EV Charging Analytical (Demo)	April 2026
--	------------

- Tracks EV charging performance by highlighting **energy consumption, revenue, and usage time** across cities and over years.
- Identifies **high-demand cities and trends**, helping understand where charging infrastructure is most utilized.
- Enables **data-driven decisions for scaling EV networks** by linking consumption patterns with revenue generation.

SKILLS

Computer Language: CSS, HTML, JavaScript, Python, SQL

Databases & Data Tools: Excel, MongoDB, MySQL, Spreadsheet, Tableau

Frameworks & Libraries: Express JS, Framer Motion, Node.js, Pandas, Prisma ORM, React, Tailwind CSS

EXTRA-CURRICULAR ACTIVITIES

- **Director of Damru 2.0 (Cultural Event)** – Led planning and execution of a large-scale cultural event, managing teams, schedules, and on-ground coordination for smooth performances.
- **Organizing Committee Member, Neutron 2.0 (Tech Event)** – Supported end-to-end organization by coordinating activities, managing participants, and ensuring seamless technical event execution.
- **Mentor of Juniors** – Mentored junior students in academics and technology, guiding learning paths, projects, and overall technical growth.
