PROFESSIONAL SUMMARY

Founder of WeDo, a web design and development studio delivering modern, high-performance websites and digital solutions for businesses. Alongside leading client projects from concept to deployment, I am a B.Tech Computer Science (Artificial Intelligence) undergraduate specializing in full-stack development. Proficient in React, Node.js, Express.js, MongoDB, SQL, JavaScript, and modern web technologies, I build scalable, responsive, and user-centric applications with a strong focus on performance, clean architecture, and exceptional user experience.

EDUCATION

Bachelor of Technology (Artificial intelligence) 2024 - 2028
Newton School of Technology, Rishihood University Grade: 7.0/10.0

Intermediate (Class XII) 2023 - 2024
Central Public Senior Secondary School Grade: 86.2%

Matriculation (Class X) 2010 - 2022
St Francis Senior Secondary School Hathras Grade: 94.8%

EXPERIENCE

Founder May 2026 - Present
WeDo Remote

- **Founder of WeDo**, crafting premium digital experiences where strategy, design, and technology come together to build brands that stand out.
- **Building modern websites** that don't just look exceptional—they help businesses grow, convert, and create lasting impressions.
- **Founder at WeDo** • Turning ambitious ideas into high-performance digital products through thoughtful design and seamless development.
- **Designing with purpose**, developing with precision, and helping businesses build a digital presence that truly reflects their vision.

INTERNSHIPS

Software Developer May 2025 - August 2025
Countrees AI Remote

- Worked with databases and ERP systems to manage structured data
- Assisted in data handling, storage optimization, and backend logic
- Collaborated on system design involving data flow and processing

PROJECTS

Wedo (Github) (Demo) June 2026

- **Founded and designed the WeDo agency website.**
- **Showcases services, portfolio, and brand identity.**
- **Focused on performance, aesthetics, and conversions.**

Margify - (React JS, Express, MongoDB, Node.js, Tailwind CSS, GSAP) (Github) (Demo) December 2025

- Developed a multimodal travel planning system that aggregates multiple transport options into a single flow, evaluates routes intelligently, and **visualizes the complete journey** on an **interactive map** for better decision-making.
- Strengthened travel context by integrating **current local time, weather conditions** for both locations, **nearby tourist attractions**, and **food stops**, focusing on *practical, real-world travel needs* rather than just navigation.
- Integrated **Google Places API** services for *maps, weather, and location* data by designing structured data flow and decision logic, ensuring accurate route visualization and a smooth, consistent user experience across features.

Stylee — (React, Express.js, Node.js, Mongo DB Tailwind CSS, Framer Motion, Locomotive JS , GSAP) (Github) (Demo) May 2025

- Developed **Stylee**, a full-stack fashion knowledge and trends platform that allows users to explore styles, curated collections, and evolving industry insights through a clean, intuitive, and well-organized digital experience.
- Built a modern, animated frontend integrated with a **MongoDB-powered backend**, enabling efficient management of fashion content, collections, and user data while ensuring scalability, performance, and smooth user interactions.
- Implemented secure **role-based authentication (Admin/User)** with robust CRUD operations and features like saved items and personalized content browsing to enhance platform security, user engagement, and content discovery.

SKILLS

Computer Language: CSS, HTML, JavaScript, Python, SQL, Entrepreneurship, Figma, Next.js, Firebase, SEO/SEM marketing

Databases & Data Tools: Excel, MongoDB, MySQL, Spreadsheet, Tableau

Frameworks & Libraries: Express JS, Framer Motion, Node.js, Pandas, Prisma ORM, React, Tailwind CSS

EXTRA-CURRICULAR ACTIVITIES

- **Director of Damru 2.0 (Cultural Event)** – Led planning and execution of a large-scale cultural event, managing teams, schedules, and on-ground coordination for smooth performances.
- **Organizing Committee Member, Neutron 2.0 (Tech Event)** – Supported end-to-end organization by coordinating activities, managing participants, and ensuring seamless technical event execution.
- **Mentor of Juniors** – Mentored junior students in academics and technology, guiding learning paths, projects, and overall technical growth.
